For my 60th anniversary Jubilee Tourney, 126 studies were submitted, by 81 composers from 29 countries. The average quality was high; over three quarters at least had something fresh, witty or deep – and many were simply beautiful.

At times, when I went over all those vastly different concoctions, I felt like a vaudeville impresario, judging hopeful fire-eaters, tap dancers, knife throwers, stand-up comedians, human cannonballs, unicyclists, all showing their acts, hoping to be in the show. Often, I was truly moved by the dazzling acts they had devised, their belief in them, the endless practising that had obviously gone into them – but mainly, I was just awed. Chess is inexhaustable, and the study composers' imagination and ingenuity are inexhaustable. I am grateful to them.

I also want to thank tourney director René Olthof and my co-judge Harold van der Heijden. For some twenty years, I have known both as kindred souls; lovers of the unusual, and especially the beautiful in chess.

Only when I saw the original manuscripts, some with solutions in hardly legible handwritten cyrillic; in enigmatic notations; without variations or with an almost

sickening plenitude of them, I knew how much work René had done – just to get all the studies uniformly and anonymously to Harold and me.

Harold, with his vast knowledge, his famous database and his eagle's eye as an analyst, hopefully kept us from awarding studies that are not entirely new or correct – but his artistic appreciation was what really mattered.

That endgame composition is a form of art, and therefore a matter of taste, was rather shockingly illustrated by the differences in our initial selections – when we showed each other our first top-9's, not a single study was in both of them. It was great fun, and very enlightening, to explain to each other, in lengthy e-mails, the merits and shortcomings of individual studies. Harold insisted that it was 'my' tourney and that therefore I had to speak the final word, but even if his own ranking would have been different in a few places, we both like the one that is presented here, and he influenced it greatly.

When René finally gave us the names, we discovered we had turned down quite a few celebrities, and had awarded two newcomers, Van Essen and Bichu,

highly. The winner of the tourney, the New Zealander **Emil Melnichenko**, has been a renowned study composer for over a quarter century, and has won many prizes before.

When they have been checked, the award becomes final, and the winners will receive their prizes. Studies not in the final award are at the disposal of the authors.

Below are the 17 awarded studies with, more or less briefly, the solutions. The complete analyses by the authors can be found in the file **tk60st.pgn**, downloadable at the web version of this report at http://www.timkrabbe.nl/tk60/tk60st_e.html

White to play and win

With a highly original and witty sacrificial manoeuvre, which repeats itself on a neighbour file as an echo-chameleon, White obtains successive vacating checks for two rooks. Finally g7 is vacated by a promotion, leading to a winning rook plus pawn vs. rook endgame. The construction, with only 12 pieces, is perfect. The thematic try 1.♙d7+, when a third version of White's vacating manoeuvre is refuted by a drawing version of the rook endgame, adds to the unity. Remarkably, the composer seems to have tried to hide the beauty of his masterpiece by using an obscure notation system for the approximately 1200 moves of his, often repetitive, analysis. It took the tourney director many hours to turn this labyrinth into a PGN-file, and the jury to get a clear view of the path from entrance to exit. The reward was great.

Black threatens mate. In order to win, White must vacate g7. This calls for a check by the ♖g8, which calls for a check by ♜f8 – which calls for a line-opening bishop sacrifice. 1.♙b7+ Why 1.♙d7+ does not work will be explained later. If Black does not capture a bishop now, White has less trouble liberating the North-East corner.

a) 1...♙xc7 2.♜c8+ ♙b6 3.♜c6+ After 3...♙xb7 4.♜b8+ ♙xc6 5.g8♗ ♘f8+ 6.♙g7 ♜xg6+ 7.♙xf8 ♘e6+ 8.♗xe6+ ♜xe6

9.♙f7 White wins the rook ending. The thematic defence is 3...♙b5 when Black hides behind the white pieces. A strange hunt develops: 4.♙a6+ ♙a5 5.♜c5+ ♙a4 6.♙b5+ ♙b4 7.♜c4+ ♙b3 8.♙a4+ ♙a3 9.♜c3+ ♙a2 10.♙b3+ ♙b2 11.♜c2+ ♙b1 12.♙a2+ ♙a1 13.♜c1+ That would go on forever, if not for the edge of the board: 13...♙xa2 14.♜a8+ followed by 15.g8♗, and White wins.

b) 1...♙xb7 2.♜b8+ ♙c6 3.♜b6+ and now the dark-squared bishop joins the hunt: 3...♙c5 (or 3...♙xc7 4.♜c8+ ♙xb6 5.g8♗ and White wins) 4.♙d6+ ♙d5 5.♜b5+ ♙d4 6.♙c5+ ♙c4 7.♜b4+ ♙c3 8.♙d4+ ♙d3 9.♜b3+ ♙d2 10.♙c3+ ♙c2 11.♜b2+ ♙c1 12.♙d2+ ♙d1 13.♜b1+ and ♜g8 finally has its check.

1.♙d7+? does not work, because after 1...♙xd7! the black king is too close: 2.♜d8+ ♙c6 3.♜d6+ If Black tries to hide now, White wins as above, but 3...♙xc7! 4.♜c8+ ♙xd6 draws. After 5.g8♗ (or 5.♜d8+ ♙e7! and both promotions only draw; 6.g8♗ ♘f8+ 7.♙g7 ♜xg6+ etc., or 6.g8♘+ ♙xd8 7.♘xh6 ♘f8) there follows 5...♘f8+ 6.♙g7 ♜xg6+ 7.♙xf8 ♘e6+ 8.♗xe6+ ♙xe6 and now the rook ending is a draw.

White to play and win

Two rooks up, White is in for a ferocious sacrificial struggle to keep

Black from promoting. Both sides take part in the slugfest: Prokes-manoeuvre with double rook sacrifice on f4 by White; self-blocking bishop sacrifice on a promotion square and unguarded guard with Novotny by Black. The black king must undertake a Long March to f3 where his proud passed pawns only help in the tragicomical but beautiful way in which he is mated.

The initial position, light but not too elegant, has miraculously withstood all the computing power unleashed at it. In those side variations too, beautiful moves can be found.

An amazing work of art for a new composer.

White to play and draw

Natural position; crystal clear story, governed by one theme: the prevention of promotions. With two unguarded guards, White uses Black's ingenious anti-promotion struggle for an even more ingenious anti-promotion manoeuvre of his own. The paradoxical journey of the white king from a5 by c8 to d5, to stop pawn h5, makes one think of Réti.

1.a7 Seems winning. **1...♗e1+ 2.♖b5 c6+ 3.♖c5 ♗xd3+ 3...♗f2+? 4.d4** and White wins. **4.♖d6 ♗g3+ 5.f4!** Mysterious, for the moment. After **5.♖xd7 ♗c5+ 6.♗d8 ♗e6+ 7.♖c8 ♗c7 8.♖xb7 dxe4 9.fxe4 c5 10.♗b5 h4 11.♗f1**

Brilliant final position with a triple-pin stalemate, after a baffling rook-promotion. Play, from an initial position that looks remarkably like the First Prize, somehow lacks unity – or perhaps we should ap-

plaud the composer for finding an acceptable introduction to his beautiful idea at all. The fork after 7...♙xg7+ 8.♗xg7 is a terrific joke, and it is amazing that after 7.♘g8, Black cannot reach a winning database endgame of rook and bishop vs. two knights.

1.♖e4+ Other moves spoil the promotion's strength, e.g. 1.♖c8+ ♗xd2 2.f8♖ ♖h6+ 3.♗g8 ♘f6+ 4.♗f7 ♘h7+ 5.♗e8 ♖xf8+ 6.gxf8♖ ♘xf8 7.♘f5 ♖f6 8.♘xd6 ♖xd6 9.♗xf8 g4 etc. **1...♗d4 2.♘g5** Here, 2.♖e8 ♗xe4 3.f8♖ ♖h6+ 4.♗g8 ♘f6+ 5.♗f7 ♘h7+ 6.♘f5+ ♗xf5 7.♖h8 ♗g4+ 8.♗g8 ♘f6+ 9.♗f7 ♘xe8+ 10.♗xe8 ♖xh8+ 11.gxh8♖ ♖f8+ loses. **2...♖h6+ 3.♘h7 ♘f6** Or 3...♗e5 4.♖d8+ ♗e4 5.♗g8 ♙xg7 6.f8♖ ♙xf8 7.♘xf8 ♖g2+ 8.♘eg6 ♘f4 9.♖e8+ ♗d5 10.♗g7 drawing – 'at least until there is an 8-piece database,' as the composer drily remarks. **4.g8♖ ♘g8 5.fxg8♖! ♗e5+ 6.♖g7 ♖xf8+ 7.♘g8** and Black cannot win. With a queen on g7 something like 7...♖a8 8.♖xe5+ ♗xe5 9.♗g7 ♖b6 would win, but now all pinning rook moves are stalemate. After 7...♖f7 8.♘xh6 ♙xg7+ 9.♗g8 ♖a7 10.♘f5+ rescues, and after 7...♙xg7+ 8.♗xg7 the king's fork on the two rooks draws.

White to play and win

Black creates an unusual Rambling Rook that can be captured without an immediate stalemate. With a logical and beautiful manoeuvre consisting of several phases, White silences this rook, and wins. A nice feature is that pawn c7's two moves each play their very different but crucial parts in the solution.

Dirk Borst
an unusual Rambling Rook

1.♙f5 ♖h7+ 2.♙xh7 ♖xh7+ and after a future ♗x♖, there follows c5, and the stalemate cannot be lifted. To win, White must force c6+ and hide at b6. But this forcing can only be done *with* the black pawn on g5, and the hiding only makes sense *without* it. These considerations govern

White's manoeuvre, but there are many pitfalls. **3.♗g6!** g5 being taboo, only this will lure the Rambling Rook to the south of his king, which is necessary to force c6+. **3...♖h6+** 3...♖g7+ boils down to the same, but after 3...c5? 4.♖c2(1) White runs to c3 and wins much faster. **4.♗f5 ♖f6+** **5.♗e4 ♖e6+** After 5...♖f4+ 6.♗d5 White jumps to move 10. **6.♗d3 ♖d6+** **7.♗e2** Not 7.♗c2? ♖d2+ 8.♗b1 ♖b2+ 9.♗c1 c5 and the white king is boxed in. **7...♖d2+** **8.♗f3 ♖f2+** **9.♗e4 ♖f4+** **10.♗d5** The crucial position. Without pawn g5, Black could now play 10...♖f5+, and White couldn't make progress. **10...c6+** The only move. 10...♖d4+ 11.♗c5 c6 12.♖c1 loses immediately, and after 10...c5 11.♖c1 ♖d4+ 12.♗e5 White picks up g5, runs to c3 and wins; 12...♖e4+ 13.♗f5 ♖f4+ 14.♗g6 ♖f6+ 15.♗h5 ♖h6+ 16.♗xg5 ♖g6+ 17.♗f4 ♖f6+ 18.♗e3. **11.♗e5** White cannot use the new hiding place right away: after 11.♗c5? ♖f3! draws, as the next step in the winning manoeuvre, 12.♖c2, is refuted by 12...♖xg3 13.♗xc6 ♖c3! For this rook endgame to be won, pawn g5 must vanish. **11...♖e4+** **12.♗f5 ♖f4+** White has slower wins, Black slower losses. **13.♗g6 ♖f6+** **14.♗h5 ♖h6+** **15.♗xg5 ♖g6+** **16.♗f4** Again, White must force the rook to the south. **16...♖f6+** **17.♗e3 ♖e6+** **18.♗d2 ♖e2+** And now: to the hiding place. **19.♗d3 ♖d2+** **20.♗e4 ♖d4+** **21.♗e5 ♖e4+** **22.♗d6 ♖e6+** Or 22...♖d4+ 23.♗c5 ♖d3 (23...♖xg4 24.♖gd3 ♖g3 25.♗b6 c5 26.♖d5! ♖xc3 27.♖xc5 ♗xa3 28.♖xa5+ ♗b4 29.c5) 24.♖g2 ♖xc3 25.♗d4! ♖xa3 26.c5 and wins. **23.♗c5 ♖e3** Or 23...♖e5+ 24.♗b6 c5 (24...♖e3 25.♖b3) 25.♖c1 ♖e6+ 26.♗xc5 ♖e5+ 27.♗d4 ♖e4+ 28.♗c3. **24.♖g2 ♖xc3 25.♗d4!** (25.g5? ♖g3) **25...♖xa3 26.c5** and White's g4-pawn decides.

A hard struggle for a back-rank mate, with the white pieces constantly occupying squares guarded by pawns. The highlight is the striking 6. ♔fd6.

1. ♔xf6 1. ♔f7? ♔g4! but now 2. ♔f7 is a threat. 1... ♔g8 2. c7 ♔c6 Or 2... ♔a8 3. ♔xd6 and now 3... e(g)xf6 4. ♔c8! or 3... h2 4. ♔e4 ♔bb8 5. cxb8 ♔+ ♔xb8 6. ♔f1. 3. ♔xd6 ♔xc7 4. ♔e8 4. ♔f7 exd6 5. ♔xc7 d5+ 6. ♔g5 a2 will eventually be a draw. 4... ♔ac6 5. ♔d8 ♔c8 and now 6. ♔fd6! and mate soon, e.g. 6... ♔xd8 7. ♔f6+ exf6 8. ♔xd8 mate.

8. ♔e5+ ♔b5 9. ♔d3 ♔xd7 10. b3 mate was threatened too. But now a second family check on c5 decides: 10. ♔xc5+ and White wins.

White to play and win

Avoiding two stalemate traps, White delivers a beautiful three bishop mate.

 two studies in the award

A dominated bishop is finally silenced by a knight's corner move.

White is two pieces up, but two pieces are *en prise*. 1. ♔f4+ 1. ♔g3+ ♔f3 loses a piece. 1... ♔f3 2. ♔xd3! 2. ♔c6+ ♔xf4 3. ♔c7 d2 4. ♔xd6+ ♔e3 5. ♔c5+ ♔f4 is a draw. 2... ♔xb5 3. ♔f6 ♔d6 Or 3... ♔g6 4. ♔d8! followed by ♔e5 winning a piece. 3... ♔e2 4. ♔e5 ♔d6 5. ♔c7 ♔b5 6. ♔b8 also loses the bishop. 4. ♔c7 ♔b5 5. ♔b8 ♔g6 6. ♔e5+ ♔f4 Now after 7. ♔xg6+? ♔g5 Black immedi-

White to play and draw

Creating a hiding place for his king, White stops the passed pawns, and reaches a database draw where he seems to run in the wrong direction.

1.♙xf6! Other tries leave Black with a decisive material advantage, e.g. 1.♙c7 g3 2.c6 g2 3.cxd7 ♗d1 4.♙b8 ♙b1+ or 1.♙c8 g3 2.c6 g2 3.cxd7 ♗d1 4.d8♗ ♗xd8 5.♙xd8 g1♗ 6.♙c6 ♘xg6 or 1.♙d6 g3 2.♙d2 g2 3.♙xg2 ♗xg2 4.♘xc4 ♙c2+ 5.♘d5 ♘xg6 1...g3 2.c6 dxc6+ 3.♘xc6 c3 4.♙f5+ ♘h6 5.♙c5 g2 6.♙xc3 ♗h1 7.♙g3 g1♗ 8.♙xg1 ♗xg1 9.♘d5 ♗xg6 and now only 10.♙b1! draws. There could follow: 10...♙g4 11.♙h1+ ♘g6 12.♘e5 ♘g5 13.♘e6 g6 14.♘f7 ♙f4+ 15.♘g7 with a draw. With the rook on b2, 14...♙g1! would win because of 15.♘g7 ♘f4 16.♙f2+ ♘g3.
